

DOUBLE HELIX

G L A S S W O R K S

[Helios is Coming this Valentine's Day!](#)
Monday February 14th 2011

Pictured above is Helios after reduction. The texture was made with a Jim Moore hand stamp.
Pictured below is Helios without reduction.

[New Murrini Available on Valentine's Day!](#)

Available in 3-5, 5-7 or 7-9 millimeters in diameter. All are cut to 50 mm in length. We tried out our new heart mold for this session! Each tin will contain one ounce of assorted murrini.

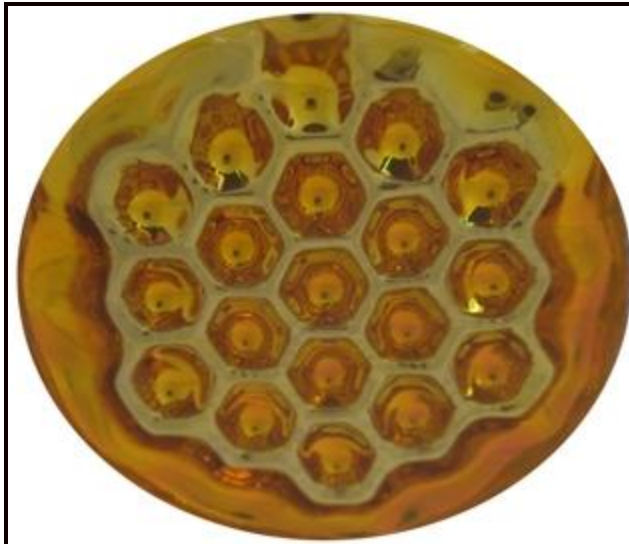

Photo above shows 5-7 mm murrini chips reduced, struck and encased in Aether.

3-5 mm 5-7 mm

Actual styles will vary in each one ounce assorted tin.

You loved HE-379 this summer and you loved it again in January. Now HE-379 joins our super luster family as Helios. Helios is a silver reduction color in a golden-yellow citrine jewel tone. We will be listing him for sale at 12:00 am Pacific Time Monday February 14th at \$100 per pound.

7-9 mm
Thanks
Jed and Julie
