

Ekho is coming!

Thursday July 23rd 2009

12:01 am Miami time

\$80 per pound.

She reduces, she strikes during the beadmaking process and she retains a pearlescent luster under encasement.

For best results; work hot, cool, reduce and encase.

You can pick her up at the Gathering in Miami or you can [order her online](#). We'll be at booth E7 with Ekho, Aether and some interesting test batches.

My sister Melissa will be holding down the shop while we're away. I'm sure she'll take good care of

you if you have any trouble [placing your order for Ekho and Aether](#) Seconds.

Thank you!
