New Test Batches at The Gathering!
Or
Online Sunday July 31st
9 am EDT*

We hope to see you at The Gathering! We will have new test batches, T-shirts, our stock colors and some free samples for Open Torch. If you can't make it, we'll miss you, but don't worry the test batches will be online too. *We are changing time zones for this one.

Our two awesome staff members, Tim and Preston, will still be enjoying the Pacific Northwest, filling your orders and answering the phone while Jed and I are out of town. After the Gathering we will be introducing our kids to the wonders of a warm beach! We will try not to think about glass then. We will check our email occasionally but if your questions could wait it would be much appreciated.

We hope you are all having a beautiful summer!

New Test Batches

Zephyr

Thank you for testing ZE-452 and answering our survey. The most commonly reported issue was too many seeds. We adjusted our melting schedule and our production process to reduce them. Based on your positive responses we have decided to move forward with ZE-452 as Zephyr. There won't be enough stock to release it until later this year but we will bring a little to the Gathering. Sorry, there won't be any available on the Website.
