

PSYCHE	July 26th 2007	Frantz Bash
<p>\$60 per pound!</p> <p>Psyche, is our new transparent purple color, similar to Gaia only purple instead of green. We don't have enough to release her on our website but will have a prerelease at the ISGB. If you get some please be nice to those of us at home and share your results and tips! You can find Psyche at the Frantz Art Glass or ABR Imagery booths.</p>	<p>We've been working on two things, new colors and finding ways to decrease the costs of production so we can bring the price of our colors down. This is the reason we've been reformulating colors. We did get several emails begging us not to change Gaia or Nyx. We heard your pleas. We may eventually make similar colors at a lower price but will continue to make Gaia and Nyx at the original price. We have been able to lower the price on Aion2.</p> <p>Elektra is the next to be reformulated and when released she'll join Psyche and Aion2 as the third of our \$60/pound color.</p> <p>We've added credit card check out to the website! You can also call and place a phone order this way. Before noon on weekdays is the best time to reach us.</p>	<p>August 11th</p> <p>Jed spends long hours in his hidden laboratory! He is going to come out for sunlight and sell interesting test batches and odd lots at the Frantz Bash on Aug 11th. Bring your check books or cash and encourage him to get out more! He'll be selling them in \$10 quarters.</p>
