March 14th, 2013

## Hello Friends!

First off, Happy Pi Day! Our daughter's math class is actually celebrating with pie! What an awesome math teacher!

We've made a few changes over the past week and I wanted to give you the details.

- #1. We're on Facebook now so give us a like. It's faster and easier to share information there than through a newsletter.
- #2. We've made a change from giving a 10% discount on orders over \$100 to offering \$5.95 flat rate shipping and free shipping for our orders over \$100. This is for US customers only.
- #3. Don't worry, international customers, we wouldn't forget you! International orders will receive a \$5.95 discount for orders under \$100 and a 10% discount on orders over \$100. You do have to email me first so I can add you to the international list!
- #4. You can read more about this on Facebook but there is a special quantity discount on Clio Dark.

Ossa Light reduced and encased in Zephyr
