

November 10th 2006 Newsletter

Hello Double Helix Glassworks Customers,

This month's newsletter is going to be short and sweet. We have a new color, Elektra! She starts out aquamarine but get her hot in a reducing flame and she will turn red, pink, salmon, vermillion and magenta! She can also develop metallic mirror effects in shades of silver, copper, and bronze. Be sure to check out all her photos on the website!

We also have frit! Currently we have Kronos Two and Gaia fritted. Next week we'll be fritting Aion and Elektra. They are available in 2 oz quantities. We'll have an assortment available when all 4 are done. We will be giving thanks at our Thanksgiving table to all of the great customers we have around the world that have enabled us to live out our dream!

THANK YOU!

Jed and Julie Hannay at [Double Helix Glassworks](#)
