October 27th 2010

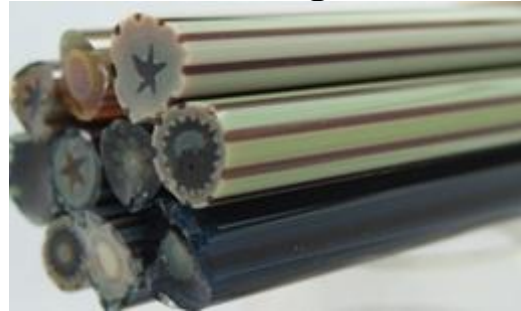

New Murrini Available Monday November 1st!

Autumn Mix 2010 5-7mm

Autumn Mix 2010 murrinis will be available on Monday, November 1st at 10 am Pacific time. Each one ounce tin will contain a variety of the Autumn Mix styles. They will be available in two diameters. You can choose from 3-5 millimeter or 5-7 millimeter. We will also have an assorted murrini mix available made up of murrinis we've sold in the past. The assorted mix will be available in three sizes, 3-5mm, 5-7mm and 7-9mm.

New Length!

We had many requests to change the length of our murrini. After experimenting we found that 50 millimeters will allow you to be able to cut the murrini to length cold or hot and still provide a variety of styles in each ounce.
