

# DOUBLE HELIX

G L A S S W O R K S

September 2nd 2010

**Kalypso is Coming  
Monday**

**Sept. 6th at 10 AM Pacific!**

Kalypso is an opaque version of Clio. If Clio is like strawberry wine then Kalypso is like raspberries and cream with the shimmer of the summer sun. She reduces, strikes, and maintains her shimmer under an encasing layer. Based off of test batches NE-323, KA-356 and KA-357. Retailing at \$100/lb

**10 Test Batches Will Also  
be Available on the 6th!**

We have reduction colors, striking colors and one that is a whole new category! ES-404, pictured above with Elektra Lyte, is a catalyst color. This test batch does nothing on it's own but when combined with a reduction color it strikes automatically!

**Murrini Mix**

And our [ISGB Murrini Mix!](#)

**Double Helix Glassworks**

2540 Crites St SW Suite B

Tumwater WA 98512
